WHERE: *UBS Arena – Belmont Park, NY*

UBS Arena at Belmont Park is made for music and built for hockey. New York's newest premier entertainment and sports venue and home of the New York Islanders has been developed by a partnership of Oak View Group, the New York Islanders, and Jeff Wilpon. Providing a significant boost to the regional economy, especially when economic activity has been greatly impacted by the COVID-19 pandemic, the world-class entertainment venue, with its timeless and classic design, bridges its iconic past with today's advanced technology and amenities.

The $1.1 billion multi-purpose, state of the art arena opened in November 2021 with a grand opening celebration that included the Islanders first home games in the building and a sold out Harry Styles concert. The venue will host more than 150 major events annually while delivering an unmatched live entertainment experience including clear sightlines and premier acoustics. UBS Arena is designed to accommodate 19,000 people for concerts and 17,250 for NHL games. In an effort to build a greener future, UBS Arena intends on being carbon neutral for operations before 2024, which will make it the first arena to do so on the eastern United States seaboard.
