*"This Is Not A Drill is a ground breaking new rock and roll/cinematic extravaganza, performed in the round, it is a stunning indictment of the corporate dystopia in which we all struggle to survive, and a call to action to LOVE, PROTECT and SHARE our precious and precarious planet home. The show includes a dozen great songs from PINK FLOYD'S GOLDEN ERA alongside several new ones, words and music, same writer, same heart, same soul, same man. Could be his last hurrah. Wow! My first farewell tour! Don't miss it. Love R."*

Roger Waters **This Is Not A Drill** is promoted by AEG Presents' Concerts West.

### **About UBS Arena**

UBS Arena is New York's newest premier entertainment and sports venue and future home of the New York Islanders. Located at Belmont Park in Elmont, New York, the state of the art facility will open for the 2021-22 National Hockey League season and host more than 150 major events annually. The arena and surrounding development are expected to create 10,000 construction jobs and 3,000 permanent jobs, generating approximately \$25 billion in economic activity over the term of the lease.

Developed in partnership with Oak View Group, the New York Islanders, and Jeff Wilpon, UBS Arena is poised to be one of the area's – and the nation's – most prestigious and appealing venues for musical acts, events and performers of all genres, and will create a unique entertainment experience for artists and audiences alike. The arena is being constructed with a fan-first approach that leverages sophisticated engineering acoustics to amplify the audio experience, high-resolution LED displays and will include the largest scoreboard in New York.

UBS Arena will offer the highest-end amenities and customer service, through VIP suites and clubs that merge boutique hospitality with live entertainment. Clubs and suites will have a timeless design inspired by classic, well known New York establishments and will offer premier views of the bowl. Complementing UBS Arena, the surrounding campus will consist of 340,000 square feet of luxury retail and will include a 4 star boutique hotel.

UBS Arena is being built to achieve Leadership in Energy and Environmental Design (LEED) standards for New Construction. In an effort to build a greener future and minimize environmental impact, UBS Arena intends on being carbon neutral for operations before 2024, which will make it the first arena to do so on the eastern seaboard.
