SUSTAINABILITY EFFORTS

Billie Eilish will continue her long-standing partnership with environmental nonprofit [REVERB](#) on this leg of the tour. Building on the success of previous sustainability efforts, this tour will focus on reducing greenhouse gas pollution, decreasing single-use plastic waste, supporting climate action, and updating concession offerings to promote and encourage plant-based food options with [Support+Feed](#).

TICKETS

In keeping with her commitment to making a difference in the environmental impacts of her music and touring, \$1 from each ticket sold will go to **REVERB** and its ongoing effort to help support organizations across the country addressing the impacts of food insecurity and the climate crisis.

Billie Eilish will donate 50% of the Changemaker ticket to the REVERB Climate Impact Fund and Support+Feed.

ECO-VILLAGE

The **Billie Eilish REVERB Eco-Villages** will be set up in the main concourse of every show where fans can take part in the tour's sustainability efforts, connect with nonprofits, and take meaningful action for people and the planet.

SUPPORT+FEED

For collective action at the intersection of climate and food, [Support+Feed](#) will continue their 360 campaign throughout the tour. **Support+Feed** will again offer an expanded version of the **Support+Feed Pledge** inspiring fans to eat one plant-based meal a day for 30 days with digital elements and community activations. Fans will also have the opportunity to participate in Plant-based Food Drives in a selection of cities alongside the tour to raise awareness and gather food to distribute to local communities.

TRANSPORT

Fans are encouraged to join the effort to make the **HIT ME HARD AND SOFT: THE TOUR** more sustainable. Where possible, take public transportation and carpool to and from the shows to help reduce greenhouse gas pollution and encourage more public transportation options. Fans will receive information via email about public transportation options before the show.

VENUES

Venue partners are also helping to lessen the environmental footprint of the tour. In addition to efforts to decrease waste through reducing or eliminating single-use plastics and diverting landfill waste with compost and recycling, venues will be offering plant-based food options at all shows.

FAN PARTICIPATION

Bring an empty reusable water bottle or donate for a custom RockNRefill Nalgene bottle to fill up at the free water refill stations located at each venue. The RockNRefill bottles and refill stations are located at the Eco-Villages in the main concourse at all shows. Fight fast fashion by opting for thrifted, upcycled, or borrowed clothes instead of buying new clothing to wear to shows.
